

Lyes Rahal

FULL STACK DEVELOPER – MASTER'S IN INFORMATION SYSTEMS AND SOFTWARE ENGINEERING

Holder of a Master's degree in Computer Science, specialized in full-stack web development. Passionate about JavaScript, Python, and modern technologies, I have acquired skills in Vue.js, Django and FastAPI, TailwindCSS, and RESTful APIs. Curious, autonomous, and adaptable, I am looking for an opportunity to contribute to innovative projects in development or software engineering.

EXPÉRIENCE PROFESSIONNELLE

Computer Science Teacher at CEM

October 15, 2025 – June 30, 2026, On-site / CEM Belout Mohamed El Esnam

As a computer science teacher at a middle school, I taught fundamental concepts, adapted lessons to students' levels, assessed their progress, and contributed to creating a clear and structured learning environment.

Frontend Vue.js - Vuetify

November 2024 - March 2025 / Freelance, Remote

As a Frontend Developer, I developed modern and responsive interfaces using Vue.js and Vuetify, while ensuring the integration of external APIs and the implementation of new features. I also handled code maintenance and bug fixing related to the user interface.

Surveying Technician / Yassira

July 2019 - September 2022, On-site / Bouira Oued El Berdi

PROJETS ACADÉMIQUES

Blood Donation Platform – Bachelor's Final Project

Development of a web application to facilitate the search for blood donors and the management of blood needs.

Technologies : HTML, CSS, JavaScript, PHP, MySQL, jQuery

Réalisations : Database design, MCD modeling and class diagrams, backend development in PHP, and creation of responsive user interfaces.
